## Useful Cyber Websites

### Inspired Careers

<https://inspiredcareers.org.uk>

Inspired Careers is an interactive careers hub full of information for people looking to enter cyber security straight from education, moving from other industries or simply furthering their careers. The website features more information regarding the multi-agency 'Digital Defenders' initiative.

### Cyber First

<https://www.ncsc.gov.uk/new-talent>

The National Cyber Security Centre (NCSC) provide the 'Cyber First' programme which is the development of the UK's next generation of cyber professionals. Student bursary schemes, courses for 11 - 17 year olds and girls competitions are helping the NCSC to nurture talent for a future in cyber security. 'Cyber First' delivers a broad range of activities designed to identify and support talented young people through their education and highlight exciting career opportunities in cyber security.

### Cyber Security Challenge

<https://cybersecuritychallenge.org.uk>

Unearth your hidden cyber talents and find the education and training opportunities on offer. Includes national competitions and learning programmes. There are also lesson resources for teachers. Cyber Security Challenge and other partners are also involved with the 'Cyber Discovery' programme, where young people aged 10 - 13 are invited to test their skills in a bid to find and train undiscovered cyber security talent. They also run 'Cyphinx', a 3D virtual world where budding security professionals can play games and competitions, and test and demonstrate their cyber skills to each other and potential employers.

### TechFuture Careers

<https://www.thetechpartnership.com/tech-future-careers>

For anyone interested in a tech career, no matter what stage of education. Includes free resources for school computing classes and clubs, and access to challenges and competitions.

## **Tech Future Girls**

<http://www.techfuturegirls.com>

An online club with challenges to help girls develop their tech skills.

## **Girl Geeks**

<http://www.girlgeeks.uk/about-girlgeekscampus>

Helps connect female students talented in STEM (science, technology, engineering and maths) with colleges, universities and businesses who are looking for them.

## **Junior Bring IT On**

<http://www.juniorbio.com>

Includes cool jobs in IT and fun games for 8 - 12 year olds.

## **Future Morph**

<http://www.futuremorph.org>

Offers information, quizzes and games to help anyone aged 11-16+ studying STEM subjects to find their future career - and not just becoming a scientist or engineer!

## **Apprenticeships-Guide**

<https://www.gov.uk/apprenticeships-guide>

Advice on apprenticeships.

## **Resources for Schools**

<https://www.gov.uk/government/publications/cyber-security-programmes-and-resources-for-schools-and-further-education>

Information for teachers on all the cyber security learning resources and activities available to schools and further education.

## **IT Jobs Watch**

<http://www.itjobswatch.co.uk/jobs/uk/cyber%20security.do>

Find out more about salaries in cyber security.
