

SCENARIO 1

You are going to a party at a class mate's house.

You have told your parents you are staying overnight at a friend's house to work on a project together.

What are the risks?	How could you reduce the risks identified?

SCENARIO 2

You are going out with a group of friends to a local night-club.

A mini bus has been booked to take you all there and pick you up at the end of the evening.

Your friends all get into the nightclub but you are refused entry.

You did not bring your mobile.

What are the risks?	How could you reduce the risks identified?

SCENARIO 3

You have been to visit a friend and stayed longer than you should have.
You take a short cut home to save time.

What are the risks?	How could you reduce the risks identified?

SCENARIO 4

You are at a family party and are ready to go home.

Your older brother's friend offers you a lift home. He/she has been drinking but you fancy him/her.

What are the risks?	How could you reduce the risks identified?

SCENARIO 5

A friend's parent offers you a lift to school. They are complaining of a bad hangover.

What are the risks?	How could you reduce the risks identified?

SCENARIO 6

You and a friend have met up with two boys from your class. You are all persuaded to get into a car with two older boys for a drive.

What are the risks?	How could you reduce the risks identified?
