

Scenario 3

Nikolai is 13 years old. For his birthday he got a new smart phone. It had lots of cool features, including an excellent camera. He is constantly taking selfies. His friends showed him some of the funny pictures they have taken of themselves, often in their bedrooms at home. His best friend Jake told him that he sometimes takes photos of himself in the nude, which he says is a laugh. Nikolai decided to take a few of his own naked pictures. He stored these images on his phone as he would never show them to anyone. 3 days later he lost his phone at school and has no idea where it is.

Imagine you are Nikolai. Write a diary entry about:

- why you took the photos
- what may happen next
- how you feel about what's happened
- what you can do now.
